- ✔ And More

Simplify Product Quoting and Comparison

FireLight Quoting for life enables producers to quickly calculate needs, run real-time quotes, filter products, compare product quotes, share quote information with clients, and more. By leveraging the configurability, capabilities, and sales activities of the FireLight platform, carriers and distributors can deliver a streamlined, cohesive life quote to apply process with end-to-end integrated data, creating seamless sales experiences for producers and their clients on one platform.

- ✔ Easy filtering based on data entry and selection process
- ✔ Multiple view, print or share quote capabilities
- ✔ Custom quote next step actions
- ✔ Integrated e-Ticket and full e-Application submission options
- ✔ Interconnected data across other FireLight sales activities
- ✔ Intuitive, fully responsive user experience from any device
- ✔ Quote analytics and reporting
- ✔ User preference customization
