

## Maximize Sales Opportunities with the Power of Mobility

In today's competitive, fast moving and mobile sales environment, leveraging technology that delivers access to sell anytime is key to success. ForeSight® provides a mobile responsive platform to quickly and securely manage key point-of-sale activities for all lines of business from handheld devices, increasing productivity, improving agility and speed to market, and maximizing sales opportunities.

## Reduce Costs and Maximize Reusability

ForeSight employs a single code base to support all user environments including web, desktop and mobile platforms, eliminating the need for multiple point-of-sale illustration systems. ForeSight can be deployed on both the desktop and the Web with full system based code and case synchronization.

## The Power of ForeSight Mobile

- A single code base for all ForeSight platforms delivers reliability and significant cost savings.
- Configuration Management allows you to choose products availability on the mobile platform.
- Scaled down results page allows for quick and easy viewing of key numbers and values.
- A single click allows the producer to email fully compliant illustrations to the prospect.

## Secure and Fast Sales Access

- Product Information
- Client Contact Data
- Illustrations
- Financial Calculators
- Pre-Set Sales Strategies
- Quick Quotes
- Marketing Information

## Support Illustrations on Popular Mobile Devices

- Apple: iPhone and iPad
- Android: Droid
- BlackBerry: PlayBook
- Windows: Surface and Phone 8

*Easily run Quick Calculations or Illustrations and select the reports you would like to email.*
